Behavioral Strategies for Educators & Parents

Tell Me About UBI and PBIS!

Utah was chosen to participate in the Utah Behavior Initiative, UBI. This is a state program that provides supports to schools as they integrate and run a positive behavior intervention system, PBIS, in their school.

The foundation of PBIS is that behavior is something that can be taught and positively rewarded. Research shows that students learn more when there are positive behavior programs in place (Principals 200 Club & Unicorn Slips) and where rules and procedures are clear and explicitly taught.

To learn more about UBI and PBIS please visit the following website.
